

Worksheet # 8

Week 4, Day 2: Scraping guidance, Bayes' law, more descriptive statistics, why visualize

Name: _____

NetID: _____

Date: _____

Guided checkpoints (optional)

1. Six Steps to Scrape a Website

List the six typical steps of scraping a web page.

2. Bayes' Anatomy

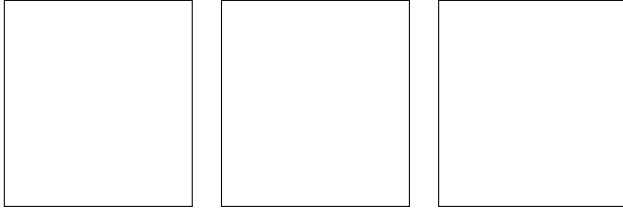

Write Bayes' law, define prior and posterior

3. Review: The EDA Toolkit

Name the methods (and attribute) that offer an exploratory look at a dataframe.

4. Common Shapes of Distributions

Sketch a distribution in each panel, mark the mean and median, and label the panel.

5. Chebyshev's Bounds, Tabulated

Fill in the bound for each k .

k	Within k SDs	Outside k SDs
1		
2		
3		
4		
5		

6. Anscombe's Quartet

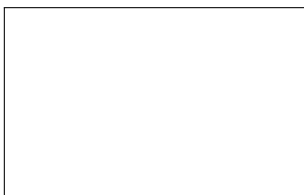

Sketch each of the four datasets.

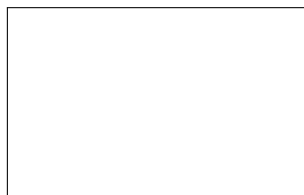

I

II

III

IV

All four have...
