Worksheet #16

Week 8, Day 2: Intro to classification

Name: _____
NetID: _____
Date: _____

Guided checkpoints

For full credit, fill in the checkpoints. If you skip a checkpoint, you must include your own notes for full credit.

1. Four Steps to Modeling

Write down the four main steps for modeling, ideally from memory!

1.

2.

3.

4.

2. LINE Criteria

Write down the LINE criteria for applying linear regression to a dataset, ideally from memory.

L:

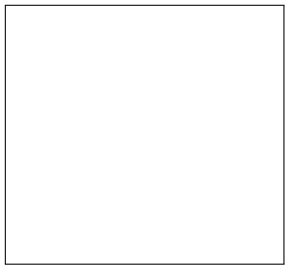

I:

N:

E:

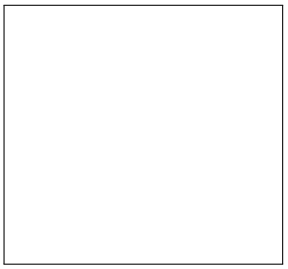

3. Regression vs. Classification

Sketch a regression model on the left and a classifier on the right. Write what each model predicts.

regression

Predicts:

classification

Predicts:

4. Three Sets

Split the bar into training, validation, and test sets. Label each part with its share of the data and write what each set is used for.

Training:

Validation:

Test:

5. Cross-Validation

Fill in each cell with V (validation) or T (training) for 5-fold cross-validation.

	Fold 1	Fold 2	Fold 3	Fold 4	Fold 5
Split 1					
Split 2					
Split 3					
Split 4					
Split 5					

6. Models for Your Project

Write down two ideas for using a regression model and/or a classifier in your project.

Idea 1:

Idea 2:
